📍 Toronto 📞 437-661-4025 ✉ mudrawork@gmail.com [in LinkedIn](#) [🌐 Github](#)

## Profile Summary

Information Systems graduate student with emerging research interests in human-computer interaction and accessible technology design. Seeking to combine technical skills with human-centered research to address accessibility challenges for vulnerable populations. Currently pursuing opportunities to contribute to meaningful research while developing expertise in HCI methodology and inclusive design practices.

## Education

|                                                                                                                                                                                                             |           |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>Northeastern University, Toronto</b><br>Master of Science in Information Systems — <b>Current GPA: 4.0</b><br>Relevant Coursework: Database Management, Business Analysis, System Design, Data Analytics | 2024-2026 |
| <b>Centennial College, Toronto</b><br>Postgraduate Diploma in Mobile Application Development — <b>GPA: 4.2</b><br>Capstone Project: Developed mobile applications using Android and iOS technologies        | 2023-2024 |
| <b>Gujarat University, Ahmedabad</b><br>Bachelor of Computer Applications — <b>GPA: 4.0</b><br>Honors: First Class with Distinction<br>Activities: Debate Team Captain, Covid Helpline Coordinator          | 2019-2022 |

## Skills

**Languages:** Python, SQL, Java, JavaScript, HTML, CSS, PHP, VB6 (basic)  
**Microsoft Office:** Excel (advanced), Word, PowerPoint, Outlook  
**Research Tools:** Statistical Analysis, Data Visualization, User Research Methods, Accessibility Testing  
**Core Competencies:** Human-Computer Interaction, Accessible Design, Technical Writing, Cross-Cultural Research, Data Analysis

## Professional Experience

|                                                                                                                                                                                                                                                                                                                                                       |                     |
